Success STORY

“PEEF scholarship program is a remarkable initiative of Government of the Punjab for talented and deserving students truly on merit basis.”

I am Hafiz Annas Ashraf from Lahore. I have five siblings. My father runs a shop. He has limited financial resources. My father faced difficulties to manage financial resources for his children's education. I have done my FSc Pre Engineering with good grades. Due to my excellent academic result I wished to get admission in well reputed institution.

I applied in Mechanical Engineering at Ghulam Ishaq Khan Institute of Engineering Sciences and Technology (GIKI), Swabi which is one of the best institutes for Engineering in Pakistan. I was confident to get admission due to my good grades. I was only worried about my educational expenses. My mother was very supportive and always motivated me to pursue my education. During the process of applying in GIKI, I came to know about PEEF-DFID scholarship for talented and deserving students. I secured Admission in B.Sc. Mechanical Engineering at GIKI. I immediately applied for this scholarship.

I fulfilled the criteria of PEEF-DFID merit and need based scholarship, I was selected for scholarship. PEEF-DFID scholarship was a ray of hope for me. This scholarship not only comforted me but also resolved financial worries of my family. Me and my family took a sigh of relief and thanked to Almighty ALLAH. PEEF scholarship program is a remarkable initiative of Government of the Punjab for talented and deserving students truly on merit basis. Without PEEF-DFID scholarship it was impossible for me to pursue my higher studies in GIKI.
