SUCCESS STORY

I got Gold Medal in M.Phil. Environmental Sciences. Its prime credit goes to PEEF. PEEF's scholarship helped me to pursue my education and bring success in my life and career; PEEF's financial support made my educational journey easy.

I am Aysha Saddiqa. I am from Layyah, District of South Punjab. I have six siblings. My father is passionate about our education. He always motivated us for higher education. He believes if you struggle hard, ALLAH will help you to achieve your goals.

My father had not sufficient financial resources for our education. He managed some financial resources for my graduation. I got admission in University of Veterinary & Animal sciences, Lahore, that time was very tough for me because my father told me he will not be able to support me in my master's studies. During my study at UVAS I came to know about PEEF Master's Level Scholarship for talented and deserving students. I left no stone unturned to obtain highest grade in my graduation. As a result of my hard work in graduation; I got distinction in BS Environmental Sciences. My family was very happy on my success, but at the same time my father advised me to start career because he couldn't support me for Master's Degree.

I had a hope and belief in myself. I got permission from my father, if I manage to obtain scholarship from somewhere, could he allow me to continue my study? He said Ok. I came to know about PEEF scholarship during my studies at UVAS and its transparency and merit based methodology.

I got admission in M.Phil. in Environmental Sciences at International Islamic University, Islamabad.
