Success Story

AMMARA KHALID
BS (Space Sciences), University of the
Punjab, Lahore

“PEEF Scholarship made it possible for me to get higher studies. After getting scholarship, now I am studying with more hard work and dedication”

I am Ammara Khalid from Lahore. I belong to a middle class family. My father works in office. It is difficult for my father to provide good education to me and my siblings.

I studied in a government school till grade 10 and remained a brilliant student throughout. These good grades helped me to get admission in Government College for Women, Samanabad, Lahore in FSc (Pre-Eng.). I managed to obtain good grades in intermediate as well.

These days, education is the need and demand of our society. I always wanted to get more education, as it gives us knowledge of the world around us and changes it into something better. I always focused on my studies. But after intermediate, my financial situation was a hindrance in my studies. My family and I were worried regarding my education.

The day came, that changed my life. One fine morning, I got a letter at home about PEEF Scholarship. I was overwhelmed with feelings of happiness having that PEEF letter in my hands. This scholarship provided me a good opportunity to continue further studies. I got admission in BS (Space Sciences) in one of the finest Public Sector University, University of the Punjab, Lahore.

PEEF Scholarship was a ray of hope for my bright future. PEEF Scholarship made it possible for me to get higher studies. After getting scholarship, now I am studying with more hard work and dedication.

After completing my education, I want to devote myself for the betterment and development of

society. After ALLAH, my family and I are cordially thankful to Government of Punjab and PEEF for this tremendous initiative of educated Pakistan.
